Sum of Effort and Sum of Impact

by Initiative and Category

Priority Actions

The three initiatives worth acting on first

01 Fix the Cart Funnel Leak

- A/B test a simplified add-to-cart flow on product pages
- Add pricing/shipping clarity before the cart step
- Run a mobile-specific UX audit of the same step

2100

orders recoverable

02 Diversify Revenue Concentration

- Test a second acquisition channel at modest budget
- Merchandise/cross-sell Sugar Panda and Hudson River
- Set an internal cap: no product/channel above ~45% of revenue

56%→45%

target concentration

03 Investigate & Prevent Quality Spikes

- Audit the September Mr. Fuzzy production batch/supplier
- Add a refund-rate monitoring alert (trigger above ~8%/month)
- Track refund rate by product weekly, not just annually
